

Name: _____

Grade: _____

Inside Balloons

Pre-lab:

- 1) If you could zoom in *really far* inside a balloon, what do you think the air inside would look like?

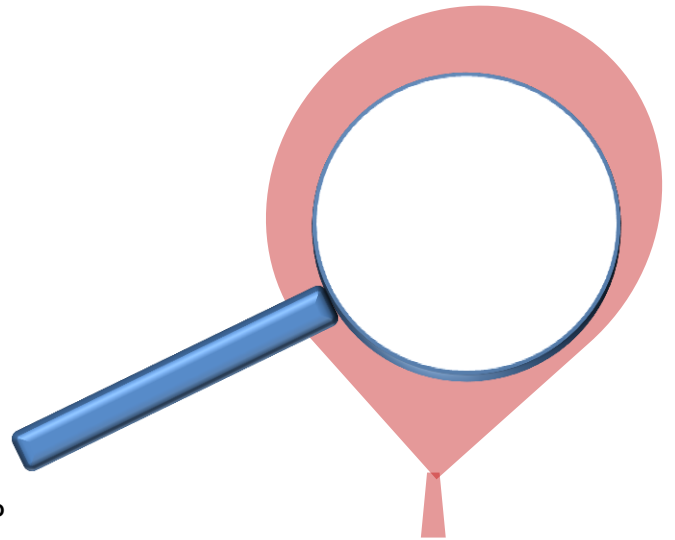

Use words to help describe this picture.

Is the air being still or is it moving?

If you kept zooming in further and further, would it look any different?

If so, draw what you think it would look like in the picture to the right?

- 2) What do you think the word “pressure” means?

Now give an example of using “pressure” in a sentence.

- 3) Do you think air can apply pressure?

If so, how do you think it does it?
