**Lecture No. # 2**  
**Students Presentations I**

Good morning

Good morning sir

Welcome to the second class in better spoken English today I am going to invite you to make your first presentation. You do you remember I told you yesterday we will have four presentation by you on this course and today is the first presentation I am sorry I am not giving you enough time to prepare for this, but life is like that, sometimes we have to speak at very short notice.

(Refer Slide Time: 00:53)

---

**Depending upon Time Speaker has for  
Preparation**

- **Prepared** : enough time to prepare on the topic
- **Extempore** : with little time to prepare
- **Impromptu** : with no time to prepare

---

In English we call it impromptu speech you are just simply ask can you stand up and speak. Sometimes you get a few minutes to prepare do you know what is that called that kind of a speech called, that is called a extempore not extempore

What is it called?

Extempore

Once again everybody please

Extempore

Yeah it is extempore and then you have prepare rehearsed speeches it is in the coming cycles the next three presentations will be prepared presentations by you, but today you are going to speak extempore I will take about a couple of minutes telling you what I expect, and then I will invite you one by one to come here and speak for about 50 minutes. Is that alright?

Say yes or no please

Yes sir.

Is that alright?

Yes sir are you comfortable

Yes sir.

And as you as you and your friends speak kindly a getting a into gossip with your neighbour if there is something for which you urgently want to consult your friend use your pencil and paper that the best way to gossip in a class, but not your mobile phones please.

Is that clear?

Yes sir.

Is that clear Ashwini is that clear Arun is that clear Gokul where are you Rohan where are you right. So, give me a couple of minutes I will tell you what I expect of you.

Is that ok?

Yes sir.

(Refer Slide Time: 02:42)

Yeah I see you guys tense today's topic is who I am you are introducing yourself to me actually I should be doing that first, but I assumed that you know me and gradually you know much more about how bad a person I am until you get greats where you will fall in love with me right. I expect you to introduce yourself with your Name, Roll Number, the Branch of engineering you are studying or sciences you are studying, your Room Number and your hostel then you have a choice you do not have to speak all of these you have to speak remember you have only 50 minutes and I am going to evaluate you for time. Did you exceed time? Did you finish much before time? Or did you finish on or in time? Am I clear to you I use 3 prepositions I used three prepositions I said if you finished much after your time did you exceed time you will lose marks if you finish much before time you will lose marks if you finish on or in time you have 50 minute 50 seconds and if you take about 45, 46, 48, 52 that is it really does not matter, but try and keep time. So, that is going to be an important consideration. Within those 50 minutes how much can you say you have just about 300 words. So, to help you decide on what you can say I have made some points here say for instance you can speak about something you like doing some people like painting, some people like drawing, some people like singing in the bathroom how many of you are bathroom singers and how many of you are singers lovely you know something you like doing or some achievement of a different kind you know everyone here have a j e e rank. So, that is not an achievement that is a minimum. Is that do you are you different in some other manner say for example, when you school you got on award for sleeping the longest hours price

for you know that is a different kind of achievement or you went climbing the Mount Everest. So, that is a different kind of achievement you may not have climbed the Mount Everest, but you may have gone on expedition or a trek or something anything different or some Nobel failure you started you want to started a club though that did not work, but you can talk about what you had in mind and why it failed some dream or ambition many people here want to become great engineers where some people here want to become great human beings you want to bring the next Nobel price for peace Mother Theresa brought it some thirty years ago that is a Nobel dream that is a talk about it.

(Refer Slide Time: 06:19)

What are the constraints you have only 50 seconds huge constraint, but remember planning and preparation can help you survive under any kinds of constraints I have said no more than 3 slides and I guess you do not have slides today. So, do not worry, but if you have any well ignore it today you know you do not have slides today, but ordinarily I do not expect more than 2 or 3 slides on this kind of presentation I will tell you about presentations other presentations and I will tell you how many slides you can use for them.

Are you all right

Yes sir

Are you with me are we together

Yes sir

lovely that is great speak you know you can also have photos, but today that I do not think that is going to happen speak slowly that is a very very important consideration if you want to be understood by your listener no matter from which country or which discipline your best bet I will repeat your best bet is to speak slowly not too slow not you know you say not in the manner some politicians do one word now another word 2 minutes later, but you know at a comfortable comfortable pace. Not certainly not in a hurry in a later I can show you with a timer that a good speed is something like 6 words per second or 5 words per seconds or 7 words per second no more no less of course, you cannot be counting it, but with practice you will get used to it like athletes get used to it is that ok? Prepare for today of course, you do not have much time to prepare rehearse before you present today you do not have much time, but in the given time you can easily use 300 words I guess that should be enough.

Are you ready.

Yes sir.

Say yes or know are you ready

Yes sir.

So we will begin right I am requested some of your friends to help keep time let me get back to the seat please before we do that

hi friends good morning I am Irfan my roll number is 8 and b 0 4 1 I am a second year b tech student from aerospace department I am in Alaganandha hostel room number 205 I am from a beautiful country side of Kerala or Calicut I like playing football, watching football, playing video games and sometime I play cricket and I watch movies and documentaries.
