

Better Spoken English
Prof. Shreesh Chaudhary
Department of Humanities and Social sciences
Indian Institute of Technology, Madras

Lecture No. # 32
Some “Difficult” Sounds in English

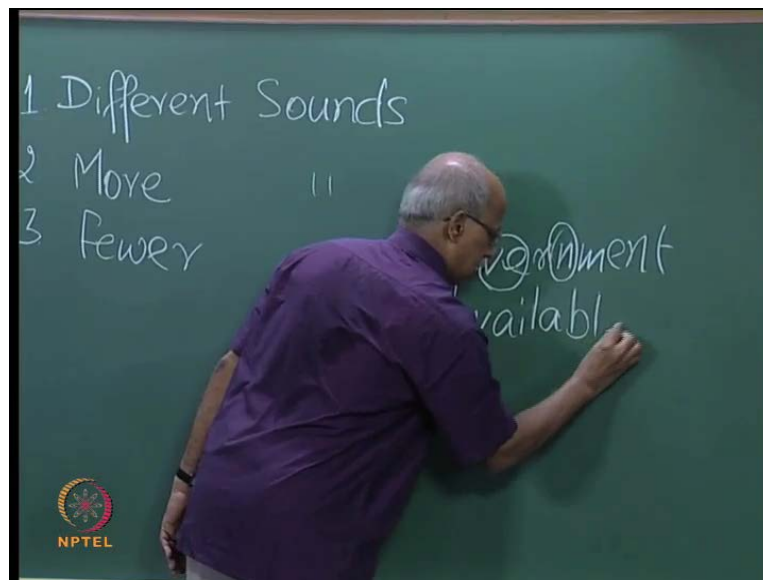

Good morning.

Good morning sir.

This today spoke about how human beings produce different speech sounds. Where you here yesterday, how many of you were here yesterday? Ok. Did you have difficulty understanding that but, when we speak another language, something other than our mother tongue, quite often do not always you know not with everyone, quite often we do not get all sounds all right.

There may be you know traditionally people have blamed your mother tongue, they say mother tongue influence. That is not the case, is not that your mother tongue is preventing you from learning another language, do you believe that. Because, you know Telugu does it say that you cannot learn English or cannot learn French or Latin, do you believe that yes or no. No, it is not, is only that your attention has not been drawn, you have not heard that sound or your attention has not been drawn to the way that sound is produced. Actually, if we look at it carefully there are three reasons, why learn standard sounds get into our second language or our foreign language.

(Refer Slide Time: 01:59)

I will you can take notes, these are the following; either because we use a different sound, English uses pa. And we say ba english usess sa or sha and we say something else English uses sa and we say za or English uses za we say sa. That may be one reason, you know that we have some sound in each word. But, may be some times, we use different sounds, different form, what standard English use, I will give you examples, in a few minutes or, or we use more sounds than required, then English does say for example, if somebody asks you what does your mother do and you say see is teacheroo. Then woo is an extra sound last month we played that video twinkle twinkle little star and the girl makes fun of Telangana accent of English. And this is like diamondooo, that woo is extra or many of is an my part of the country. You know the place where Aman and I come from, we do not say station, we say estation, we say stage we say eschool we say esports; we a done extra e.

Lot of people do that in the south in some other positions, say for example, you know many of boyfriends you do not go to film the go to film they add an i between learn and more. Or many of my friends in Hyderabad are not against Telangana but, they are against Telangana, you add an extra sound. Or sometimes you use fewer sounds, there should be ten sounds in the word, you use only nine or only eight.

Then, you know the word sounds different it is difficult for you to, others to understand you, that is why I have said what is non standard sound, what is non standard speech that which impedes communication across regions. We have learnt English to speak not to our mothers or our brothers or our sisters. We have learnt to speak English to, so that we can speak to the rest of the world. And if you speak English in such a manner that only people from Nellore or Nalakonda can understand you. Only people from Hubli and Bellary can understand you, only people from Thrissur or Cochin can understand you., then your purpose is not fulfilled ok, which means you must acquire standard sounds right. We will look at some examples of nonstandard sounds. So, in this case you know, when we say we use fewer sounds, lots of people in India, lot of people do not pronounce this word correctly, how should it be pronounced government. But, many people take this away this government, government Manmohan Singh government, Jayalalitha government it is not government what is it?

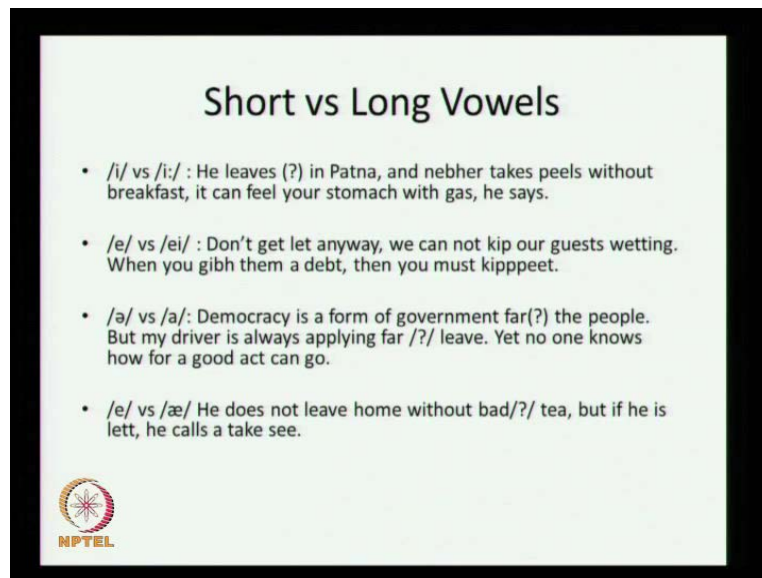

Government

Government, government main stress on government; similarly, you know take another word, how should it be pronounced?

Available

Available but, lot of people pronounce it only as available, so your using fewer sounds, so nonstandard speech, nonstandard sounds appear in your speech. No matter what language if there is nonstandard sound, it is because of these three reason, what are they either you are using a different sounds or you are using more sounds then required or fewer ok. Relax sit back I am going to give you some examples, and I am going to ask you to look at them have fun please do not laugh at others but, try and see, why it is so, then change it. Is that ok? Shall we do that for the next 35, 40 minutes are you comfortable ok. Right please that is look at this.

(Refer Slide Time: 07:43)

Short vs Long Vowels

- /ɪ/ vs /i:/ : He leaves (?) in Patna, and nebher takes peels without breakfast, it can feel your stomach with gas, he says.
- /e/ vs /ei/ : Don't get let anyway, we can not kip our guests wetting. When you gibh them a debt, then you must kippeet.
- /ə/ vs /a/ : Democracy is a form of government far(?) the people. But my driver is always applying far /?/ leave. Yet no one knows how for a good act can go.
- /e/ vs /æ/ : He does not leave home without bad/?/ tea, but if he is lett, he calls a take see.

Many of us in India, do not distinguish between short and long vowel sounds such as e you know English as two sounds in that place. One is short a as in bit or leave and the other is long as e ok as in leaf b. What is this speaker trying to say, their can you tell me Aman, you come from Patna, what is this speaker trying to say there it should be he lives in Patna, it should not be leaves in Patna. But, then your confusing how can he lives in Patna, you can say he leaves Patna, that means he does not like Patna. Every time you goes there he comes backs to Chennai ok.

That will describe either me or Amen ok but, when we see he lives in, then you get, what you are trying to this speaker that is the problem with this speaker is, that he is unable to get it as short as can be ok. It say you know English has this difference some vowels are very short live and the others are very long leave, your lips have to spread, we will do some drill it. Go to the next parts of the sentence, can you rewrite the sentence or you do not have to rewrite it can you speak it with proper stress, proper pronunciation he lives in Patna and.

(())

Pills, what is spelling of pills here p i l l s or p i double l s, pills without breakfast why?

(())

It can fill your stomach with gas ok, you know will look at some more examples later. Similar, thing you know English has lots of pairs of long and short vowels e ee, a ae, woo woo. We also have some but, you know not as exaggerated as English has. So, look at this case for example what is what do you think the reader, the speaker is trying to say there, it is not let, what is it? It should be late what should it be?

Late

yeah then next part of the rest of the sentence.

(()) gone

Is it correct the word debt, is it correct, what is the what is the speaker trying, what what does this speaker intend to say.

Date

Date ok what is the spelling of date, d a t e but, if you pronounce it quickly it sounds like debt, then your listener is confused. So, can somebody please read that entire sentence allowed with proper pronunciation ok Kalpesh can you do that or the Rohan can you do it.

Do not get late any way we cannot keep our guests wetting, when you give them a date then you must keep it.

Yes you must keep it, you must keep your tongue ok. Look at the next, you know this is a and aa English has huge difference, that we can you read that sentence allowed, somebody please somebody else please, can you do that yeah.

My driver is always applying for leave. Yet no one knows, how far a good actor can go.

Yes you know many of us in India do not distinguish between for and far in places like UP eastern, UP between Lucknow and Varanasi lot of people pronounce f o r as f a r. But, down south in Tirunelveli, Salem, central Tamil Nadu, southern Tamil Nadu, parts of Kerala Andhra, they pronounce far as for. We are going to you know the boy will go very far, that is the very far, the boy will go very far ok. But, in Varnasi they should die for your country not die far your

country, die for your country ok; these length differences are very crucial to English look at the next. How should it be.

Should at be bad tea should at be bed tea, he does not leave home without bed tea; go on.

If it is late

(())

But, many people pronounce taxi as texi you know particularly in western India, Gujarat, Rajasthan, Punjab you know they do not say taxi they say texi ok. Each a region has it is peculiarity if English man to do our language you know and they have done it they are atrocious in Hindi they would could not say [FL] that is a [FL] hm ok. They could not say [FL] the said [FL] and you know the great Himalaya's they pronounce and is Himalaya I feel like killing them when they say Himalaya you know or Ganga they could not ganga they were it Ganges.

What kind of name is that, you know I have a colleague here, my you know she is a professor my department they Deviki Reddy. And we had a German visitor recently he kept calling a devaki

And we have got another calling now Upasana and there is another European guy, he always calls are Upsana. We make the point I am making is is not unusual you do not have to feel ashamed of yourself, there is no value addition, there is no attitude problem to it ok. It happens its natural, when we learn English is not my mother tongue, is it your mother tongue? It is not.

We are not learnt it from our mothers or our fathers, or our grant parents we have learnt in school from books, from television. And it is possible that sometimes we do not get all the sounds right. In such situation we should see, how I should speak how should my lips and tongue move. So, that, I get it right the attitude should not we let it go it is not my mother tongue, how do I care no if something is worth doing, it is worth doing, complete the sentence please.

If something is worth doing, it is worth doing, well right otherwise do not do it ok. If if you do something, if you cook, if you go to fetch water for some body, if you polish somebody's boots, then polish it is such that you are the best boot polish ok. Something is worth doing it is worth doing, well do you agree right, Ajay sure you look like wonder struck right; so this same way ok.

So, take care of the, I am not telling you that all of this do this things, but all of us I am not telling you that all of us has these things but, all of has one of these things am I right. We may not have all of this but, we may have one of this do you agree, what is that, we have to find and then we have make changes accordingly look at some others ok. On the other just as some people make it short late is pronounced as let. Some people pronounce let as late; they do not say later let him come in they say late him come in, I thought is going to dead late you know how can late him come back ok.

But, some people you know India is vast country or English you know, he just spoken all over the world but, all over the world, it is spoken differently. On the fourth if you like can I show you documentary on different accents of English in the world shall we do that, nothing just come in and have fun. Actually I want you to show one or two films but, may be we could that in HSB the studio is not free. Kiran where are you? Can you give me some time outside may be during the long weekend or some such things you know; let us have some fun.

But, I can show you some documentary on different pronunciation of English world wide. So, just as some people pronounce long sound short, late becomes let. Similarly, some people pronoun short sounds long ok; the pronoun latterly look at in this case, what is the speaker trying to say is read it to me.

The mate as very different meaning is animals mate in the jungle ok, therefore they produce children. Ok they do not have boarding things like marriage ok ok.

(Refer Slide Time: 18:29)

Short vs Long Vowels - 2

- /e/ vs /ei/ : They first “mate” at a cinema hall, and then they planned a “gate” away. But in Chennai “gate” together are more popular.
- /u/ vs /u:/ : Many students spend much time on facebook these days, in no time they learn how to use it as a tool. Actually, they even ignore their look. Few colleges in India have swimming pool, but they all have computers and chat room.

And then you they have this they first mate at cinema hall ok. Next will complete the sentence please

They planned is is the gate away or

Get away

Get away, what should it be?

Get away

You know the stress is on way, get away next sentence but in Chennai

You know you keep having a school get together, IIT always does at least three of four alumni get together, because they bring money of course ok.

So, you know we always have lots of get together's but many people pronounce get together as gate together, you will gate is other matter. Look at the next sentence o n o can somebody please read it allowed as it ought to be heard, first read it; ok Kiran you can do it, first read it as it is written.

Time on face book these days

Yeah some people you know make it log some facebook ok.

In no time we learn how how to use

Yeah is should be? Use but, they sat use

You know as a tull it should be tull correct go on.

Actually they even ignore there they look few colleges in India have swimming pool but, they all have computers and chat room.

Ok it should swimming pull it should be room etcetera you know just a little where you speak slow you make a guarantee, that you will not only get your contents right. You guarantee that you will got the pronunciation right as well. Imagine you know only five years later not two far from not much further from now, you are in second year by the time you graduate. And within year or two you will be making presentations to hall full of people like this.

And there everything must cook perfectly, the contents, the pronunciation, the dress, the smile on your face, the confidence ok. Excellence as somebody said is a product of attention to details ok. Excellence is nothing else excellence is not you know prayer to god. Of course is god is you know, if we believe an as I do, you know there is if god is happy anything can happen.

But, god would not be happy without thapasya, have you heard of the word thapasya? Have you, yes or no, what is thapasya? Feared you know sleep or hunger. Others may be you know fairies may be dancing or angels may be dancing but you are a engaged in your work that is tapasya. So, if you paid that kind of attention, you can do anything you like you are gods, you know that is, what all the great people have said.

(Refer Slide Time: 21:41)

Some Other Vowels

- Children bring not book to the class, but do note use it. Many people die on rods in India, they should be careful. Rich people now use roads in their homes. They take cock, when it is hote; but when it is cold, they take mor of it. They go to a costal town during winter vacation, but it is coastly. Poor do not mind going for, or working at /nəit/. Whether hom or abroad, one must oaffer one's best. That is gold, that is /dəimənd/.

Look at some more, let us have some entertainment ok. Can, who will read it loud first as it is written then, with correction please. Ok you know, which part of the country, people speak notebook as not book ok. We are very fond on making fun of the others, you know. Lot's of my south Indian friends make fun of the Malayalies ok why did you Malayali not go to is school simbly.

Ok but all of us have it, all of us have some problem ok all of you know ok where does we want to work he wants to work in the gulf ok. But, all of you know the point I am making is please laugh it others if that gives you fun but, also laugh at yourself correct ok can you Irfan read it the way Malayali's read it are you good at laughing at your-self you do not mind right ok read it.

Notebook to the class but, do not use it

Ok the problem which you know mainly Malayalies speakers is the interchange, they pronounce n o t as n o t e and n o t e's as n o t. So, what should be in notebook becomes not book and what should be not becomes note ok but once you pay attention move your tongue, accordingly open your mouth accordingly and you take care of Iran go on.

Many people die on rods in India.

What should it be?

roads

Roads in India ok go on.

They should be careful ok

People now use roads in their home

Actually it should be rods. So, you know concrete houses in require iron rods ok

They take cock

What should it be? It should be coke ok yeah

When it is hote

Go on

But, when it is called

But, when it is called

They take mor of it

Yeah

They go to a costal town

That should be coastal you know there is found is correctly actually you know ok go on please.

Costal town during winter vacation, when it is costly

Yeah many many people pronounce it as coastly is not coastly it is costly but, remember all of us have our own peculiarities do you agree ok go on Irfan.

Poor do not mind going for going for or working at

(Refer Slide Time: 24:42)

Some Other Vowels

- /e/ vs /æ/ : Laziness kills more people than do bed habits. They climb up and down by lift, go in and out by car or take see, use trolley to kerry shopping beg, and then eat canedi, ice cream, chocolate, their snakes are also kelory rich, so they become fate...

The slide is titled "Some Other Vowels" and contains a single bullet point discussing the difference between /e/ and /æ/. The text is a humorous, nonsensical paragraph. In the bottom left corner, there is a circular logo with a star-like pattern and the text "NPTEL" below it.

Ok leave it there let us go to the next another part of the country ok confusion between a n a ok please who will read it, who will ok why not you please.

Laziness kills more people than do bed habits

Yeah it should be, bad habits

Bad habits

They climb up and down by lift, go in and out by car or take see

What should it be?

Taxi

Taxi

Use trolley to kerry

What should it be?

Carry

Carry

Yeah should be bag

But they say beg ok if then,

Canedi

What should it be?

Candy

Candy, chocolates, snakes

What should it be?

Snack

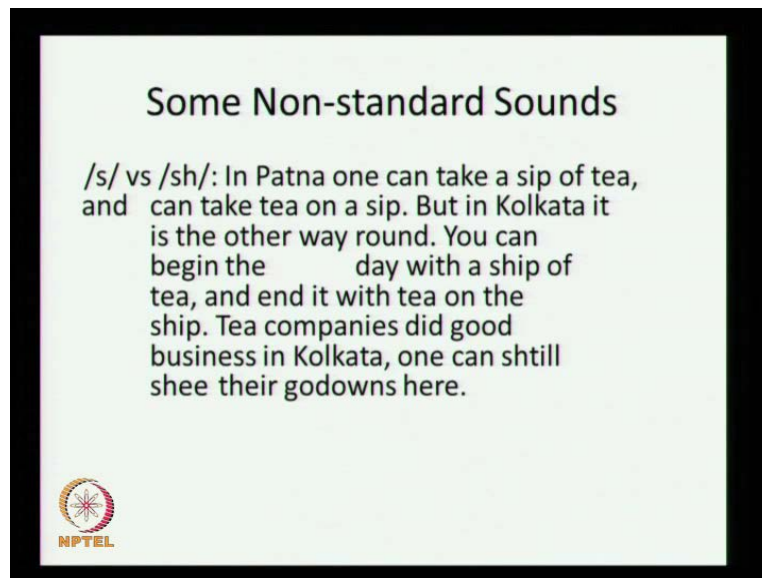

Snacks

kelory

Have should be calorie rich

Ok right

(Refer Slide Time: 26:00)

Next, you know for many of us we so far we looked at only vowels but, I am now asking look at consonant ok sounds that are produced with **obstruction**. You know in our alphabet we first have a aa e ee and then we have ka kaa right. So, k kaa is consonant, a aa is vowels, we also have peculiarities of consonant sounds, say my part of the country for instance. You know I think, I have been telling you that, until I became about 1925 or 26 I went to a study in Hyderabad I spoke. Actually I spoke good English, I did not speak English in my friends in Hyderabad started making fun of me, I said do not make fun of me. I can also then tell you about your Hyderabad and teacheru you know all of us have, that kind of kind of thing in Bihar in Eastern U P, in Orissa, in Assam, in Nepal in we do not speak English sorry we do not speak English, we speak English ok.

We take sip of tea and we go by sip, we do not go by ship ok, we stand in the queue for ration cards not for ration cards ok. Actually, if you do too much Sasha in Patna, they will tell you what are you hissing like a snake ok speak like normal human beings. But, on the other hand if you go to Bengal everything there is in the morning a take ship of tea, you know yeah right you know it is a rashagulla is not rasagulla. And there it is still every you know just all of us do not have all the sounds like the British do not have over th tha they cannot, th they cannot say thum, there is your thum ok.

Because, they have do not have a th it is not that they cannot learn many actually, you know pay complement to the British all the grammars of all the modern Indian languages are you with me, everybody please yes. You know you must acknowledge the British where not one nation you know they keep all kinds the absolutely terrible British. You know killed, murdered, raped, helpless women and there were also angels, who gave everything away to the poor, the helpless the destitute.

They did some wonderful work in this country, otherwise pressed by systems of cast, class, taboos they brought hospitals, colleges, education opened the gates to everyone, they said even Harijan could come, women could come ok. They wrote the first grammars of all Indian modern Indian languages Telugu, Tamil, Hindi, Mythili, Gujrathi, Kashmiri, Bengali no matter what they wrote it first. So, you next time you here somebody say are the British where this that take it with not just a pinch of salt, take it with spoon full of salt ok.

Because, they were all kinds it is only as good as saying that all all you know malayalis are bad speakers of English, not the case they are fantastic you know some of the at least I have a studied with five of them five of my teachers, where from Kerala. And I will say two of them, where better than any teacher has studied under elsewhere in the world, you know I have also had the good luck to a study in some other universities. So, no such generalizations keep it in mind but, yes there are peculiarities. So, let us overcome those peculiarities can somebody please read this sentence a loud, some body not from Bihar or Bengal anybody for Bengal here, anybody who knows Bengali ok. Do not worry great language you know great literature, great music ok can somebody please read it ok Ashwini can you try this sentence.

In patna one can take a sip of tea

Should did be sip or ship

Ship

Yeah right go on.

But, in Kolkata it is other way rounda, you can begin the day with ship of the tea

Should be sip of tea correct and

End it with tea on the ship

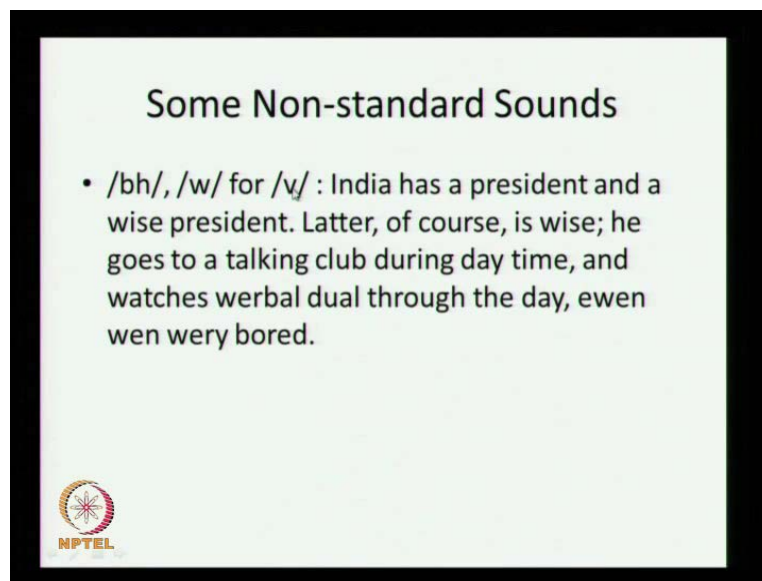

That is correct

Tea companies did good business in Kolkata, one can still see their godowns here

Yeah it should be still not still ok there should be see not see say, their godowns, godowns here ok

Just look at another instant pan Indian problem including you and me.

(Refer Slide Time: 31:24)

We do not get this you know these sounds right this o and this particularly this many people you see we in Bihar, Bengal, Orissa, Assam, Nepal much of you know Punjab etcetera. We pronounce it bh, which berry good, bavel, bassed India is bassed country.

Ok but here in the way south India is a wast country sometimes things are the west country ok it is it is neither wast nor bassed what is it, it is let your lower lip. In the final the fourth presentation I am going to listen to each number if you say five loose marks, if you sub five you loose marks that should be five ok I am going to listen for that. And in all case is of doubt my friends are recording you I will go back to the recording, you see the point. So, get into it and

remember you are not doing it one presentation here, you are acquiring a skill, which will be use full to you not only for your life you generations to come.

When you speak good language your children, your grand children you know your relatives children also speak good language you become model to the others am I nt I right? When one person comes from your family to IIT in the that street in Hyderabad have sit, they put of his sign board saying in this street lives of some student from i i t j e e or something is that correct? Yes or no nobody from Hyderabad here ok.

Now, the put it of such since in [FL]etcetera; may be I am exaggerating it slightly but you see you know good good you know achievement has impact correct do nt people come in ask you, how to prepare for IIT they do. Similarly, they will ask you, how to you speak English correctly right wo nt they. So, you know aquire that, can somebody please read it allowed; somebody from the central row, you know you have been sitting comfortable enjoying like a comedy on the t v please ok come on.

India has president and wisepresident

What should it be?

Vice president

Vice president ok go on

Latter of course

Later later otherwise laterr l a t e r

latter of course is wise, he goes to talking club during day time and watches werbal dual

What it should it be?

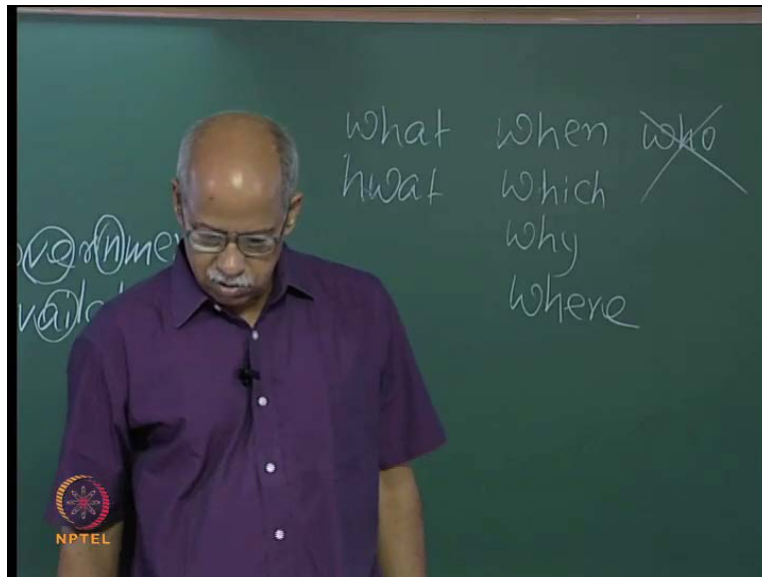

verbal

Verbal yes duel

Dual through the day, ewen wen wery bored ok

I want to make a point here you know please take your note book

(Refer Slide Time: 34:41)

How do you pronounce this word? This is not pronounced in India all of us pronounce it as, as this as hwaat, when, which is not so without this. So, what is this, what this is what is this, what, is this when, what is this, which what is this

Why

And what is this

Who

Who this is who this is not woo ok

So, this is an exception and here, what is this what round your lips and say what, what is this

What, when, which, why, where

Where

Where

It is not very long, is not where it is, where, where once again what is this

What, when, which, why, where

But, this

Who

Also again make it long this is

What, when, which

This is long

Why

Great this is

Where

Where ok this distinction is very important in English

Ok please continue reading this sentence later of course is wise come again please

Latter, of course is wise; he goes to a talking to a during day time and watches verbal dual through the day ewen wen wery bored.

Ewen wen wery bored ok right.

(Refer Slide Time: 36:47)

/V/ vs /W/

- But the President is luckier. He rises, visiting dignitaries, himself visits other countries, awards prizes and medals, he parades of armed forces, and, only once a year, he visits talking shop and gives others there a hearing for the ear, for which he is thanked vigorously. He approves decisions already taken by the others and, thus, saves himself from controversy.

Let us look at some other confusions ok some who will do it, why do not you, you know you having fun please.

Aparna would you like to do it ok please can you standup, so that camera can catch you please.

But the President is luckier. He rises, visiting

yeah

Visiting dignitaries, himself visits other countries, awards

awards

Prizes and medals he

he

he parades of armed forces and only once a year he visits talking shop and gives others there

Other members there

Other members there a bhizan

Vision

Vision for the

vision

vision breez

Yeah you may like shhh similarly it is shh vision yes ok gone vision for

Vision for theear

It is not here it should be

Year

y e a r how do you pronounce it

Year It should be year year as in yes and then say year yes spread your lips year

Do not you see the British have their lips going from here to here like this ok, now see year but, many of ud India pronounce it as ear. This is my first year is it first year, are you in the second year what is the correct word, I am in the second year ok Aprna continue.

For which he for which he thanked bhigorous

He is thanked

He is thanked

Vigrouslly

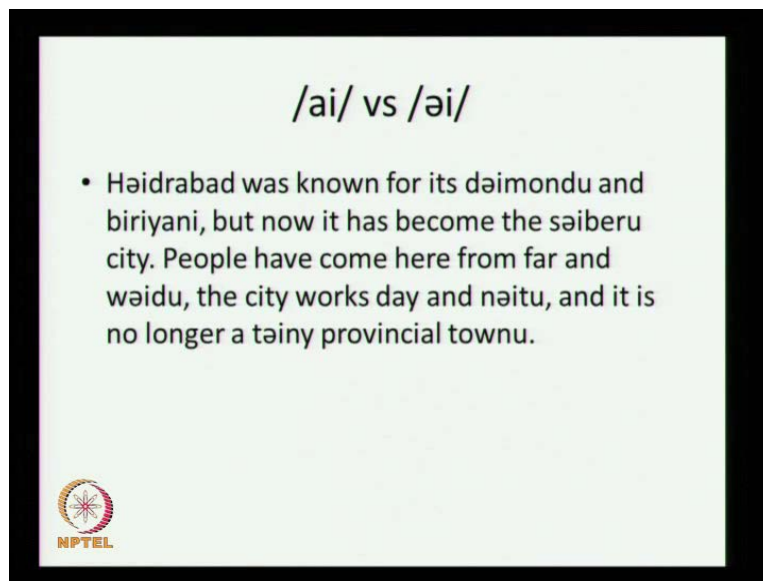

He appruubhs decision already taken by the others and thus

And thus

And thus sabhes himself from controbbhersy

Ok what you see this this is you know this is the pan Indian problem this sound, we know Indian language has that. We either have more and we without paying attention, we keep talking about very great responsibilities are in my part of the country, very great responsibilities pay attention you know excellence is nothing as I told you earlier. But, attention to details, please sit down aparna thank you very much ok who will do it next.

(Refer Slide Time: 40:04)

Ok what going to do it from haidrabad yeah

Haidrabad was known for it is daimondu

Diamond you know dies very long is diamond you know diamond it is diamond what is it

Diamond

Yeah go on please

Diamond and biriyani but, now it has become the saiberu city

Saiberu city

People have come here from far and waidu

That it should be far and wide

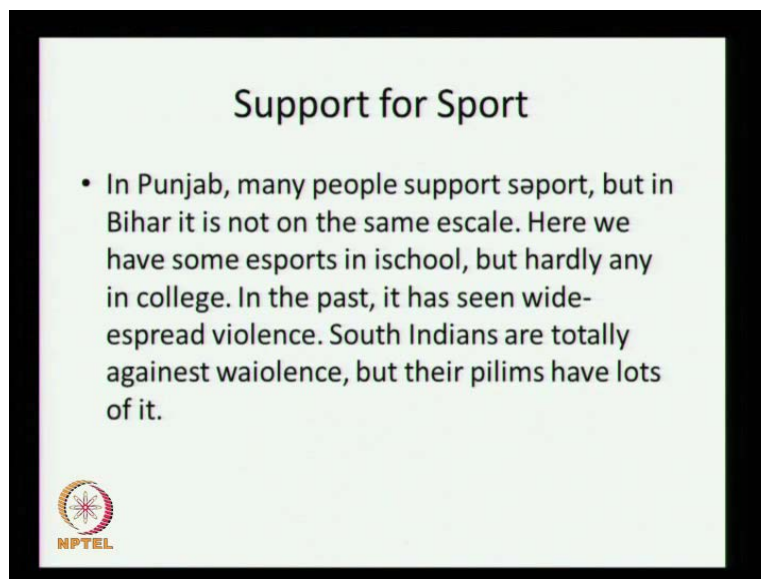

The city works day and night

It should be night

And it is no longer a tiny provincial town

Yeah it is no longer provincial town ok right

(Refer Slide Time: 41:04)

Look at this, what we do is some time's we put extra sounds more than real necessary you know, more than real in necessary. And the wonderful thing is we do not notice it ourselves, we are not aware of our own peculiarity, we are always you know this is this is human nature we are always good at finding fault in the others. Is it not right? You know, you are so quietly aware of problems in the other hostel, how other people misbehave, how other people dirty the road, how other people do not do their work. You know we are seldom aware of our own inaccuracies, our own inadequacy.

You know so some years ago I was working in Simla for about can I tell you the story ok for about 2 years I was in Punjab, Simla you know Simla was part of Punjab. When India was together India, Pakistan, Bangladesh together. Then Lahore was the capital of Punjab and Simla

was summer capital of Punjab. Largely Punjabi speaking people who surround that area and you know culture is Punjabi culture.

So, recently when I was there there were some cockroaches and other things in the quarters I was allotted you know that there is a Rastrapathi nivas there. The Viceroy used to live there, it was called Vice Regal lodge. But when Radhakrishnan became the president of India he, you know after independence the vice Regal lodge become Rastrapathi nivas and when Radhakrishnan became the president of India, he gave it to the professors of this country.

Now, there is an institute there is called Indian institute of advanced study senior professor are invited to live there for year or two and have fun. You do not have to teach classes you can bring your wife or you know other friends, if you like you are given quarters you full salary TA and no work. If you before you leave if you feel like give them a book or a lecture or you do not this is an American concept in America all the big universities are institutes advanced steady ok they do a good job their.

Radhakrishnan thought that Indian professor would also like Americans do some good job, here of course we enjoy our selves like a Americans but, work like Indians. You know we live there come back at the end of the day we tell them when I go back to Madras I will write and send it to you. And and whenever send it from Madras but, you know regardless of that, it is a great place at least great library, lots of journals, lots of books in humanities in social sciences. And in this height of 7000 feet, where Viceroy lived you know you have all the comfort all the creature comfort and wonderful view of the Himalayas, so you live there.

So, in the quarters give me there were cockroaches, so I ask the state officer, what can I do, he told me why do not you go to the market. And buy a **sapre** machine, what is this sapre machine, what is the sapre machine in I did not know I say common what, what he said sapre machine sir ok. Sapre machine will you just separate or then, is as oh god you mean spray, because you know I myself say a spray, when I go home, you know I had done it before s p. But, in the north west they add an e of between s and p not before now look at this here in punjab who will like it read it loud ok

In punjab many people support saport

Yeah they don't pronounce s p o r t, so pronounce it has support ok, so there you know you have is not Shakespeare it as shake us pear ok go on

But, Bihar it is not on the same escale

What should it be? Same scale yeah

Here we have some sport in ischool

It should be here we have

Some sports in school

Go on

Hardly any in college in the past it has been widespread violence

What should it be? Wide spread

Wide spread wide spread violence

South Indians are totally against waioleence

Yeah it should be violence yeah but

but there pilims have lots of it

You know there is south Indian film which download show at least two hundred murders ok the villages why down in Bihar we do not see it in film we actually do it, we kill one another ok. You know once again you see what we are doing is we are adding more sounds, film becomes pilim against becomes againest sports became either support or a sport you have to ask yourself.

(Refer Slide Time: 46:47)

/p/ vs /b

- Mr Pillay missed obis today. “Simbly”, he says. His ungəl came from Chenganacherri last night. Mr Pillay may take him to see some tembals. Hwen goad is habby, anything can habben. He also wants a joab in gelf, actually thuupai. He generally goes by bes, but today he is pissi and iss taking a taxi. Before starting, he makes sure that meder comes to sero.

Where is at I have nonstandard pronunciation ok last who will like to read it somebody who has not wants do it right please.

Mr. Pillay missed obis today

What should it be?

Office

Office yes

simbly

He say his ungal came from

What should it be? Uncle

What should it be? Uncle yeah do not say ungal do not bring ah there curl all together what is it uncle yeah ok go on please.

Chenganacherri last night

Where is a district called Chenganacherri is it not how far is it from your village it can't also you don't know no ok geography is bad ok please go on

Mr. pillay will take mr. pilay may take him to see

Sorry it should be may I am, I made a mistake in editing ok

See some tembals

What is in intended

Temples

What is intended?

Temples

ok

Hwen goad his habby

Yeah what they broad goad ok

Anything can habben he also wants a joab in gelf, in gelf actually thuupi

Dubai

Dubai

but in they is pissi

before starting, he make sure that meder comes to sero

Ok sorry you know making fun of anyone I am actually not make, you know what I want to do is look at you know can we be serious for a seconds. Look at your own pronunciation of English and see, do you have nonstandard sounds. If you have then it is very simple, ask yourself how I

pronounce it and change the pronunciation by manipulating organs of articulation. It is extremely simple learning another language is the easiest thing you can do, provided two things number 1 you are determined and you pay attention, do you have any questions thank you have a good day.
