PSG COLLEGE OF ARTS & SCIENCE (AUTONOMOUS)

BSc DEGREE EXAMINATION MAY 2025

(Second Semester)

Branch - PSYCHOLOGY

GENERAL PSYCHOLOGY - II

Time: Three Hours

Maximum: 75 Marks

SECTION-A (10 Marks)

Answer ALL questions

ALL questions carry EQUAL marks

 $(10 \times 1 = 10)$

No.			ALL questions carry EQUAL marks (10 ×		
Which type of problem-solving strategy involves generating a wide range of possible solutions and then narrowing down to the best one? a. Convergent Thinking b. Analytical Thinking c. Divergent Thinking d. Critical Thinking Which of the following best describes cognition? a. The study of how people are motivated by external rewards. b. The mental processes involved in acquiring knowledge and understanding. c. The biological processes that govern emotional responses. d. The physical actions taken to achieve personal goals. The "fight of flight" response is primarily controlled by which part of the nervous system? a. Parasympathetic Nervous System b. Sympathetic Nervous System d. Somatic Nervous System d.		_	Question	1	СО
Which of the following best describes cognition? a. The study of how people are motivated by external rewards. b. The mental processes involved in acquiring knowledge and understanding. c. The biological processes that govern emotional responses. d. The physical actions taken to achieve personal goals. The "light of flight" response is primarily controlled by which part of the nervous system? a. Parasympathetic Nervous System b. Sympathetic Nervous System c. Central Nervous System d. Somatic Nervous System Which hormone is most commonly associated with the stress response and is released by the adrenal glands? a. Cortisol b. Insulin c. Serotonin d. Dopamine Which theory of intelligence proposes that Intelligence is composed of several distinct but related abilities, such as verbal, mathematical, and spatial? a. Spearman's Two-Factor Theory b. Thurstone's Primary Mental Abilities c. Sternberg's Triarchic Theory d. Gardner's Multiple Intelligences Which of the following is NOT one of the four main components of Emotional Intelligence according to Goleman's model? a. Self-Awareness b. Self-Regulation c. Social Skills d. Logical Reasoning According to Karen Horney, which of the following is a primary factor in the development of personality? a. Biological Drives b. Early Childhood Experiences c. Social and Cultural Influences d. Inherited Traits Which psychologist is most closely associated with the concept of self-actualization in Humanistic theory? a. Carl Rogers c. Carl Jung d. Sigmund Freud Which of the following is NOT a characteristic of a good psychological test? a. It tests verbal communications skills. b. It uses language-independent visual patterns to assess cognitive ability. c. It assesses emotional intelligence through social scenarios.		···-	range of possible solutions and then narrowing down to the best one? a. Convergent Thinking b. Analytical Thinking	K1	CO1
The "fight or flight" response is primarily controlled by which part of the nervous system? a Parasympathetic Nervous System b. Sympathetic Nervous System c. Central Nervous System Which hormone is most commonly associated with the stress response and is released by the adrenal glands? a. Cortisol b. Insulin c. Serotonin d. Dopamine Which theory of intelligence proposes that intelligence is composed of several distinct but related abilities, such as verbal, mathematical, and spatial? 5 a. Spearman's Two-Factor Theory b. Thurstone's Primary Mental Abilities c. Sternberg's Triarchic Theory d. Gardner's Multiple Intelligences Which of the following is NOT one of the four main components of Emotional Intelligence according to Goleman's model? a. Self-Awareness b. Self-Regulation c. Social Skills d. Logical Reasoning According to Karen Horney, which of the following is a primary factor in the development of personality? a. Biological Drives b. Early Childhood Experiences c. Social and Cultural Influences d. Inherited Traits Which psychologist is most closely associated with the concept of self-actualization in Humanistic theory? a. Carl Rogers b. Abraham Maslow c. Carl Jung Which of the following is NOT a characteristic of a good psychological test? a. Reliability b. Validity c. Cultural Bias d. Standardization Which of the following best explains why Raven's Standard Progressive Matrices (SPM) is considered a non-verbal intelligence test? a. It tests verbal communication skills. b. It uses language-independent visual patterns to assess cognitive ability. c. It assesses emotional intelligence through social scenarios.	1	2	 a. The study of how people are motivated by external rewards. b. The mental processes involved in acquiring knowledge and understanding. c. The biological processes that govern emotional responses. 	K2	CO2
Which hormone is most commonly associated with the stress response and is released by the adrenal glands? a. Cortisol b. Insulin c. Serotonin d. Dopamine Which theory of intelligence proposes that intelligence is composed of several distinct but related abilities, such as verbal, mathematical, and spatial? 5 a. Spearman's Two-Factor Theory b. Thurstone's Primary Mental Abilities c. Sternberg's Triarchic Theory d. Gardner's Multiple Intelligences Which of the following is NOT one of the four main components of Emotional Intelligence according to Goleman's model? a. Self-Awareness b. Self-Regulation c. Social and Cultural Influences d. Inherited Traits Which psychologist is most closely associated with the concept of self-actualization in Humanistic theory? a. Carl Rogers b. Abraham Maslow c. Carl Jung d. Sigmund Freud Which of the following is NOT a characteristic of a good psychological test? a. Reliability b. Validity c. Cultural Bias d. Standardization Which of the following best explains why Raven's Standard Progressive Matrices (SPM) is considered a non-verbal intelligence test? a. It tests verbal communication skills. b. It uses language-independent visual patterns to assess cognitive ability. c. It assesses emotional intelligence through social scenarios.	2	3	The "fight or flight" response is primarily controlled by which part of the nervous system? a. Parasympathetic Nervous System b. Sympathetic Nervous System c. Central Nervous System	K1	CO1
Which theory of intelligence proposes that intelligence is composed of several distinct but related abilities, such as verbal, mathematical, and spatial? a. Spearman's Two-Factor Theory b. Thurstone's Primary Mental Abilities c. Sternberg's Triarchic Theory d. Gardner's Multiple Intelligences Which of the following is NOT one of the four main components of Emotional Intelligence according to Goleman's model? a. Self-Awareness b. Self-Regulation c. Social Skills d. Logical Reasoning According to Karen Horney, which of the following is a primary factor in the development of personality? a. Biological Drives b. Early Childhood Experiences c. Social and Cultural Influences d. Inherited Traits Which psychologist is most closely associated with the concept of self-actualization in Humanistic theory? a. Carl Rogers c. Carl Jung d. Sigmund Freud Which of the following is NOT a characteristic of a good psychological test? a. Reliability b. Validity c. Cultural Bias d. Standard Progressive Matrices (SPM) is considered a non-verbal intelligence test? a. It tests verbal communication skills. b. It uses language-independent visual patterns to assess cognitive ability. c. It assesses emotional intelligence through social scenarios.		4	Which hormone is most commonly associated with the stress response and is released by the adrenal glands?	K2	CO2
Which of the following is NOT one of the four main components of Emotional Intelligence according to Goleman's model? a. Self-Awareness b. Self-Regulation c. Social Skills d. Logical Reasoning According to Karen Horney, which of the following is a primary factor in the development of personality? a. Biological Drives b. Early Childhood Experiences c. Social and Cultural Influences d. Inherited Traits Which psychologist is most closely associated with the concept of self-actualization in Humanistic theory? a. Carl Rogers b. Abraham Maslow c. Carl Jung d. Sigmund Freud Which of the following is NOT a characteristic of a good psychological test? a. Reliability b. Validity c. Cultural Bias d. Standardization Which of the following best explains why Raven's Standard Progressive Matrices (SPM) is considered a non-verbal intelligence test? a. It tests verbal communication skills. b. It uses language-independent visual patterns to assess cognitive ability. c. It assesses emotional intelligence through social scenarios.	3	5	Which theory of intelligence proposes that intelligence is composed of several distinct but related abilities, such as verbal, mathematical, and spatial? a. Spearman's Two-Factor Theory b. Thurstone's Primary Mental Abilities c. Sternberg's Triarchic Theory	K1	CO1
According to Karen Horney, which of the following is a primary factor in the development of personality? a. Biological Drives b. Early Childhood Experiences c. Social and Cultural Influences d. Inherited Traits Which psychologist is most closely associated with the concept of self-actualization in Humanistic theory? a. Carl Rogers b. Abraham Maslow c. Carl Jung d. Sigmund Freud Which of the following is NOT a characteristic of a good psychological test? a. Reliability b. Validity c. Cultural Bias d. Standardization Which of the following best explains why Raven's Standard Progressive Matrices (SPM) is considered a non-verbal intelligence test? a. It tests verbal communication skills. b. It uses language-independent visual patterns to assess cognitive ability. c. It assesses emotional intelligence through social scenarios.		6	Which of the following is NOT one of the four main components of Emotional Intelligence according to Goleman's model? a. Self-Awareness b. Self-Regulation	K2	CO1
Which psychologist is most closely associated with the concept of self- actualization in Humanistic theory? a. Carl Rogers b. Abraham Maslow c. Carl Jung d. Sigmund Freud Which of the following is NOT a characteristic of a good psychological test? a. Reliability b. Validity c. Cultural Bias d. Standardization Which of the following best explains why Raven's Standard Progressive Matrices (SPM) is considered a non-verbal intelligence test? a. It tests verbal communication skills. b. It uses language-independent visual patterns to assess cognitive ability. c. It assesses emotional intelligence through social scenarios.		7	According to Karen Horney, which of the following is a primary factor in the development of personality? a. Biological Drives b. Early Childhood Experiences c. Social and Cultural Influences d. Inherited Traits	K1	CO1
Which of the following is NOT a characteristic of a good psychological test? a. Reliability b. Validity c. Cultural Bias d. Standardization Which of the following best explains why Raven's Standard Progressive Matrices (SPM) is considered a non-verbal intelligence test? a. It tests verbal communication skills. b. It uses language-independent visual patterns to assess cognitive ability. c. It assesses emotional intelligence through social scenarios.	4	8	Which psychologist is most closely associated with the concept of self-actualization in Humanistic theory? a. Carl Rogers b. Abraham Maslow c. Carl Jung d. Sigmund Freud	K2	CO2
Matrices (SPM) is considered a non-verbal intelligence test? a. It tests verbal communication skills. b. It uses language-independent visual patterns to assess cognitive ability. c. It assesses emotional intelligence through social scenarios.	5 .	9	Which of the following is NOT a characteristic of a good psychological test? a. Reliability b. Validity c. Cultural Bias d. Standardization		CO1
Cont		10	Which of the following best explains why Raven's Standard Progressive Matrices (SPM) is considered a non-verbal intelligence test? a. It tests verbal communication skills. b. It uses language-independent visual patterns to assess cognitive ability. c. It assesses emotional intelligence through social scenarios. d. It evaluates reading comprehension and vocabulary.	K2	CO1

SECTION - B (35 Marks)

Answer ALL questions

ALL questions carry EQUAL Marks

 $(5 \times 7 = 35)$

Module No.	Question No.	Question	K Level	СО
	11.a.	Analyze the Maslow's theory of motivation.		
1	(OR)		K4	CO5
	11.b.	Inspect the factors that interfere with effective problem solving.] [
	12.a.	Compare the theories of emotion.	K4	CO5
